DILUTION

If you purchase our securities in this offering, your interest will be diluted to the extent of the difference between the public offering price per share of our Class A Common Stock and the net tangible book value per share of our Class A Common Stock after this offering.

Our net tangible book value as of September 27, 2025 was \$344,197,702 or \$3.06 per share of Class A Common Stock. Net tangible book value per share is determined by dividing our total tangible assets, less total liabilities, by the number of shares of our Class A Common Stock outstanding as of September 27, 2025. Dilution with respect to net tangible book value per share represents the difference between the amount per share paid by purchasers in this offering and the as adjusted net tangible book value per share of our Class A Common Stock immediately after this offering.

After giving effect to the sale of shares of our Class A Common Stock in this offering (assuming no exercise of the underwriters' option to purchase additional shares), at a public offering price of \$55.00, our as adjusted net tangible book value as of September 27, 2025 would have been \$688,796,494, or \$5.78 per share of Class A Common Stock. This represents an immediate increase in net tangible book value of \$2.73 per share of Class A Common Stock to existing stockholders and an immediate dilution of \$49.22 per share of Class A Common Stock to new investors purchasing shares of our Class A Common Stock.

Public offering price per share	\$55.00
Historical net tangible book value per share as of September 27, 2025	3.06
Increase in as adjusted net tangible book value per share attributable to this offering	<u>2.73</u>
As adjusted net tangible book value per share after this offering	\$ 5.78
Dilution per share to new investors purchasing Class A Common Stock in this offering	<u>\$49.22</u>

If the underwriters exercise their option to purchase additional shares of our Class A Common Stock from us in this offering in full, the as adjusted net tangible book value per share after this offering would be \$6.39 per share and the dilution in as adjusted net tangible book value per share to new investors purchasing Class A Common Stock in this offering would be \$48.61 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

The table and discussion above do not take into account Class A Common Stock that may be issued from time to time under any employee stock purchase plans or other incentive plans after September 27, 2025.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A "covered short position" is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. "Naked" short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own respective accounts, may have the effect of preventing or retarding a decline in the market price of the Company's stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on NASDAQ, in the over-the-counter market or otherwise.

Neither we nor the Selling Securityholders will make an offer to sell these securities in any jurisdiction where the offer or sale is not permitted.

We may also provide a prospectus supplement or post-effective amendment to the registration statement to add information to, or update or change information contained in, this prospectus. You should read both this prospectus and any applicable prospectus supplement or post-effective amendment to the registration statement together with the additional information incorporated herein by reference or to which we refer you in the section of this prospectus entitled “Where You Can Find More Information.” You should assume that the information contained or incorporated by reference in this prospectus or any prospectus supplement is accurate only as of the date on the front of those documents, regardless of the time of delivery of this prospectus or any applicable prospectus supplement, or any sale of a security. Our business, financial condition, results of operations and prospects may have changed since those dates.

This prospectus and the information incorporated herein by reference contains summaries of certain provisions contained in some of the documents described herein, but reference is made to the actual documents for complete information. All of the summaries are qualified in their entirety by the actual documents. Copies of some of the documents referred to herein have been filed, will be filed or will be incorporated by reference as exhibits to the registration statement of which this prospectus is a part, and you may obtain copies of those documents as described below under “Where You Can Find More Information.”

Unless the context indicates otherwise, references in this prospectus to the “Company,” “Symbotic,” “we,” “us,” “our” and similar terms refer to SVF Investment Corp. 3 (“SVF 3”) prior to the Business Combination (the “Business Combination”) described in our Form 10-K (as defined below) and Symbotic Inc. and its consolidated subsidiaries following the Business Combination.

RISK FACTORS

Investing in our securities involves risks. You should carefully consider and evaluate the risk factors discussed below and under the heading “Risk Factors” in our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q that we file with the SEC, which are incorporated herein by reference, together with the risk factors and other information contained in or incorporated by reference into this prospectus and the applicable prospectus supplement, before making an investment decision. The occurrence of one or more of the events or circumstances described in these risk factors, alone or in combination with other events or circumstances, may have a material adverse effect on our business, reputation, revenue, financial condition, results of operations and future prospects, in which case the market price of our securities could decline, and you could lose part or all of your investment. The risks and uncertainties described in the documents incorporated by reference herein are not the only risks and uncertainties that we may face.

For more information about our SEC filings, please see “Where You Can Find More Information” and “Information We Incorporate by Reference.”

Risks Related to Ownership of Our Common Stock

The securities being offered in this prospectus represent a substantial percentage of our outstanding Class A Common Stock, and the sales of such securities could cause the market price of our Class A Common Stock to decline significantly, despite the fact that certain existing stockholders who purchased securities in the Company at a price below the current trading price of such securities may experience a positive rate of return. The public stockholders may not experience a similar rate of return.

This prospectus relates, among other things, to the offer of Class A Common Stock by us and the offer and resale from time to time by the Selling Securityholders of up to 48,915,312 shares of Class A Common Stock, 31,090,000 of which were purchased at a price of, or acquired based on a value of \$10.00 per share, by certain of the Selling Securityholders.

The market price for our Class A Common Stock could decline as a result of the sales of our Class A Common Stock offered by us and the Selling Securityholders pursuant to this prospectus, and such declines could be significant. The Class A Common Stock offered by us and the Selling Securityholders pursuant to this prospectus represent a substantial percentage of our total outstanding common stock as of the date of this prospectus. The sale of all securities being offered in this prospectus could result in a significant decline in the public trading price of our Class A Common Stock. Despite such a decline in the public trading price, the Selling Securityholders may still experience a positive rate of return on the securities they purchased due to the difference in the prices at which the Selling Securityholders purchased their shares of Class A Common Stock. Based on the closing price of our Class A Common Stock on December 2, 2025, which was \$66.95 per share, the Class A Common Stock offered by the Selling Securityholders pursuant to this prospectus may experience potential profit of up to \$55.95 per share. The public securityholders may not experience a similar rate of return on the securities they purchase due to differences in the purchase prices and the current trading price.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, which we refer to as the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act. These statements include, but are not limited to, our expectations or predictions of future financial or business performance or conditions. Forward-looking statements are inherently subject to risks, uncertainties and assumptions, both known and unknown, including, but not limited to, those described in the “Risk Factors” section of our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Generally, statements that are not historical facts, including statements concerning our possible or assumed future actions, business strategies, events, backlog, or results of operations, are forward-looking statements. These statements may be preceded by, followed by or include the words “believes,” “estimates,” “expects,” “projects,” “forecasts,” “may,” “will,” “should,” “seeks,” “plans,” “scheduled,” “anticipates,” or “intends” or similar expressions.

Such forward-looking statements involve risks and uncertainties that may cause actual events, results or performance to differ materially from those indicated by such statements. Certain of these risks are identified and discussed in other sections of this prospectus and in the documents we incorporate by reference, including those described in the section captioned “Risk Factors” in our most recent Annual Report on Form 10-K, and any updates to those Risk Factors in our most recent Quarterly Report on Form 10-Q. These risk factors will be important to consider in determining future results and should be reviewed in their entirety. These forward-looking statements are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that the events, results or trends identified in these forward-looking statements will occur or be achieved. Forward-looking statements are provided for the purposes of assisting the reader in understanding our financial performance, financial position and cash flows as of and for periods ended on certain dates and to present information about management’s current expectations and plans relating to the future, and the reader is cautioned not to place undue reliance on these forward-looking statements because of their inherent uncertainty and to appreciate the limited purposes for which they are being used by management. While we believe that the assumptions and expectations reflected in the forward-looking statements are reasonable based on information currently available to management, there is no assurance that such assumptions and expectations will prove to have been correct.

The forward-looking statements made in this prospectus relate only to events as of the date on which the statements are made and are based on the beliefs, estimates, expectations and opinions of management on that date. You should review carefully the section captioned “Risk Factors” in this prospectus, the section captioned “Risk Factors” in our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q, and in the sections captioned “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q for a more complete discussion of these and other factors that may affect our business. We are not under any obligation, and expressly disclaim any obligation, to update, alter or otherwise revise any forward-looking statements made in this prospectus, whether as a result of new information, future events or otherwise, except as required by law.

The rights of Symbotic stockholders are governed by Delaware law, our charter (the “Charter”) and bylaws (the “Bylaws”). The following description of the terms of Symbotic’s capital stock is not complete and is qualified in its entirety by reference to the applicable provisions of Delaware law as well as the Charter and Bylaws incorporated by reference herein. We urge you to read the applicable provisions of Delaware law as well as the Charter and Bylaws, incorporated by reference to this prospectus, respectively, carefully and in their entirety because they describe your rights as a Symbotic stockholder.

The Charter authorizes the issuance of shares, each with a par value of \$0.0001 per share, consisting of:

- 3,000,000,000 shares of Class A Common Stock;
- 1,000,000,000 shares of Class V-1 common stock;

Voting rights. Each holder of Class A Common Stock is entitled to one vote for each share of Class A Common Stock held of record by such holder on all matters submitted to a vote of the stockholders. Holders of Class A Common Stock will vote together with other holders of common stock as a single class on all matters (or, if any holders of any series of preferred stock are entitled to vote together with the holders of common stock, as a single class with the holders of such series of preferred stock). Notwithstanding the foregoing, the holders of shares of any series of common stock will be entitled to vote as a separate class upon any amendment to the Charter (including by merger, consolidation, reorganization or similar event) that would adversely alter or change the powers, preferences or special rights of such series of common stock. Except as expressly required by law, holders of common stock, as such, will not be entitled to vote on any amendment to the Charter (including any certificate of designation) that relates solely to the rights, powers, preferences (or the qualifications, limitations or restrictions thereof) or other terms of one or more outstanding series of preferred stock if the holders of such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to the Charter (including any certificate of designation) or pursuant to the Delaware General Corporation Law, as amended (the “DGCL”).

Dividend rights. Subject to the rights and preferences of any holders of any outstanding series of preferred stock, the holders of Class A Common Stock will be entitled to the payment of dividends and other distributions of cash, stock or property on the Class A Common Stock when, as and if declared by the board of directors in accordance with law.

Rights upon liquidation. Subject to the rights and preferences of any holders of any shares of any outstanding series of preferred stock, in the event of any liquidation, dissolution or winding up, whether voluntary or involuntary, our funds and assets that may be legally distributed to our stockholders will be distributed among the holders of the then-outstanding Class A Common Stock *pro rata* in accordance with the number of shares of Class A Common Stock held by each such holder.

Other rights. The holders of Class A Common Stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the Class A Common Stock. The rights, preferences and privileges of holders of the Class A Common Stock will be subject to those of the holders of any shares of the preferred stock we may issue in the future.

Class V-1 Common Stock and Class V-3 Common Stock

As of December 2, 2025, there are 74,296,208 shares of Class V-1 common stock and 403,559,196 shares of Class V-3 common stock outstanding. All shares of Class V-1 common stock and Class V-3 common stock are fully paid and non-assessable.

Voting rights. Each holder of Class V-1 common stock is entitled to one vote for each share of Class V-1 common stock held of record by such holder on all matters submitted to a vote of the stockholders, and each holder of Class V-3 common stock is entitled to three votes for each share of Class V-3 common stock held of record by such holder on all matters submitted to a vote of the stockholders. Holders of Class V-1 common stock and Class V-3 common stock will vote together with other holders of common stock as a single class on all matters (or, if any holders of any series of preferred stock are entitled to vote together with the holders of common stock, as a single class with the holders of such series of preferred stock). Notwithstanding the foregoing, the holders of shares of any series of common stock will be entitled to vote as a separate class upon any amendment to the Charter (including by merger, consolidation, reorganization or similar event) that would adversely alter or change the powers, preferences or special rights of such series of common stock. Except as expressly required by law, holders of common stock, as such, will not be entitled to vote on any amendment to the Charter (including any certificate of designation) that relates solely to the rights, powers, preferences (or the qualifications, limitations or restrictions thereof) or other terms of one or more outstanding series of preferred stock if the holders of such affected series are entitled, either separately or together with the holders of one or more other such series, to vote thereon pursuant to the Charter (including any certificate of designation) or pursuant to the DGCL.

Dividend rights. Except as provided in the Charter with respect to certain stock adjustments, dividends of cash or property may not be declared or paid on shares of Class V-1 common stock or Class V-3 common stock.

Rights upon liquidation. The holders of shares of Class V-1 common stock and Class V-3 common stock will not be entitled to receive any assets of Symbotic in the event of any voluntary or involuntary liquidation, dissolution or winding up of Symbotic.

Other rights. The holders of Class V-1 common stock and Class V-3 common stock have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the Class V-1 common stock or Class V-3 common stock. The rights, preferences and privileges of holders of the Class V-1 common stock and Class V-3 common stock will be subject to those of the holders of any shares of the preferred stock we may issue in the future. Subject to the terms of the New Symbotic Holdings' Second Amended and Restated LLC Agreement (the "New Symbotic Holdings LLC Agreement"), holders of New Symbotic Holdings common units

may cause us to redeem all or any portion of such holder's New Symbotic Holdings common units, and in connection with such redemption, we may be required to deliver Class A common units to such holder.

Conversion of Class V-3 Common Stock. Class V-3 common stock converts into Class V-1 common stock in certain situations, including automatically seven years following the Business Combination.

Transfer of Class V-1 Common Stock and Class V-3 Common Stock. No holder of Class V-1 common stock or Class V-3 common stock may transfer such shares to any person unless such holder also simultaneously transfers an equal number of such holder's New Symbotic Holdings common units to the same person in accordance with the terms of the New Symbotic Holdings LLC Agreement. Upon a transfer of New Symbotic Holdings common units in accordance with the New Symbotic Holdings LLC Agreement, an equal number of shares of Class V-1 common stock and/or Class V-3 common stock that correspond to such New Symbotic Holdings common units will automatically and simultaneously be transferred to the same transferee of such New Symbotic Holdings common units. Any attempted or purported transfer of shares of Class V-1 common stock and Class V-3 common stock in violation of the foregoing restrictions will be null and void.

Cancellation of Class V-1 Common Stock and Class V-3 Common Stock. In the event that any outstanding share of Class V-1 common stock or Class V-3 common stock ceases to be held directly or indirectly by a holder of a New Symbotic Holdings common units, such share will automatically be transferred to Symbotic and cancelled for no consideration.

Further Issuance of Class V-3 Common Stock. We will not issue additional shares of Class V-3 common stock.

Preferred Stock

As of the date hereof, no preferred stock is issued and outstanding. The Charter authorizes our board of directors to establish one or more series of preferred stock. Unless required by law or any stock exchange, the authorized shares of preferred stock are available for issuance without further action by the holders of the common stock. The board of directors has the discretion to determine the voting powers and the designations, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereof, including, without limitation, dividend rights, conversion rights, redemption privileges and liquidation preferences, of each series of preferred stock.

The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of Symbotic without further action by the stockholders. Additionally, the issuance of preferred stock may adversely affect the holders of the common stock by restricting dividends on the common stock, diluting the voting power of the common stock or subordinating the liquidation rights of the common stock. As a result of these or other factors, the issuance of preferred stock could have an adverse impact on the market price of the common stock.

Dividends

Declaration and payment of any dividend will be subject to the discretion of our board of directors. The timing and amount of dividends will be dependent upon, among other things, our business prospects, results of operations, financial condition, cash requirements and availability, debt repayment obligations, capital expenditure needs, contractual restrictions, covenants in the agreements governing current and future indebtedness, industry trends, the provisions of Delaware law affecting the payment of dividends and distributions to stockholders and any other factors or considerations our board of directors may regard as relevant.

We currently intend to retain all available funds and any future earnings to fund the development and growth of the business and therefore do not anticipate declaring or paying any cash dividends on common stock in the foreseeable future.

Anti-Takeover Provisions

The Charter and Bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized in this section, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors, which may result in an improvement of the terms of any such acquisition in favor of the stockholders. However, they also give our board of directors the power to discourage acquisitions that some stockholders may favor.

These provisions include:

Authorized but Unissued Shares. *The authorized but unissued shares of our common stock and preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the listing standards of NASDAQ. These additional shares may be used for a variety of corporate finance transactions, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could make more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.*

Business Combinations. Symbotic will not be governed by Section 203 of the DGCL. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with an “interested stockholder” (which includes a person or group owning 15% or more of the corporation’s voting stock) for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, Symbotic will not be subject to any anti-takeover effects of Section 203. Nevertheless, the Charter contains provisions that will have a similar effect to Section 203, which will take effect from and after the Restriction Effective Time, except that such restrictions on business combinations shall not apply to any interested stockholder that became such prior to the Restriction Effective Time.

Stockholder Action; Special Meetings of Stockholders. The Charter provides that stockholders may not take action by written consent, but may only take action at annual or special meetings of stockholders. As a result, a holder controlling a majority of Symbotic capital stock would not be able to amend our bylaws or remove directors without holding a meeting of stockholders called in accordance with our bylaws. Further, the Charter provides that special meetings of our stockholders may be called, for any purpose or purposes, at any time only by or at the direction of our board of directors, the chairperson of Symbotic’s board of directors or the Chief Executive Officer, and will not be called by any other person or persons. These provisions might delay the ability of stockholders to force consideration of a proposal or for stockholders controlling a majority of Symbotic capital stock to take any action, including the removal of directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. In addition, our Bylaws established an advance notice procedure for stockholder proposals to be brought before an annual meeting or special meeting of stockholders. Generally, in order for any matter to be “properly brought” before a meeting, the matter must be (i) specified in a notice of meeting given by or at the direction of our board of directors, (ii) if not specified in a notice of meeting, otherwise brought before the meeting by the board of directors, or (iii) otherwise properly brought before the meeting by a stockholder who (a) was a stockholder on the date of giving the notice, on the record date for the determination of the stockholders entitled to vote at the meeting and at the time of the meeting, (b) entitled to vote at the meeting, and (c) has complied with the advance notice procedures specified in our Bylaws or properly made such proposal in accordance with Rule 14a-8 under

the Exchange Act and the rules and regulations thereunder, which proposal has been included in the proxy statement for the annual meeting. Stockholders may not nominate persons for election to our board of directors at any special meeting of stockholders.

Further, for business and nominations of persons for election to the board of directors to be properly brought before an annual meeting by a stockholder, the stockholder must (i) provide Timely Notice (as defined below) thereof in writing and in proper form to the Secretary and (ii) provide any updates or supplements to such notice at the times and in the forms required by the Bylaws.

To be timely, a stockholder's notice must be received in accordance with an "Acceptable Delivery Method" not earlier than the 120th day, and not later than the 90th day, prior to the first anniversary of the preceding year's annual meeting of stockholders; provided, however, that in the event that no annual meeting was held in the previous year or the annual meeting is called for a date that is more than 30 days earlier or delayed (other than as a result of adjournment or recess) by more than 60 days later than such anniversary date, or, if the first public disclosure of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, such stockholders' notice must be received no earlier than the 120th day prior to such annual meeting and not later than the later of (1) the 90th day prior to such annual meeting and (2) the 10th day following the day on which public disclosure of the date of such annual meeting is first made by the Company (such notice within such time periods, "Timely Notice").

Stockholders at an annual meeting or special meeting may only consider proposals or nominations properly brought before a meeting of stockholders. These provisions could have the effect of delaying stockholder actions that are favored by the holders of a majority of the outstanding voting securities until the next stockholder meeting.

Amendment of Charter or Bylaws. Our Bylaws may be amended or repealed by a majority vote of the board of directors or by the holders of at least sixty-six and two-thirds percent (66 2/3%) of the voting power of all of the then-outstanding shares entitled to vote generally in the election of directors, voting together as a single class. The affirmative vote of a majority of the board of directors and at least sixty-six and two-thirds percent (66 2/3%) in voting power of the outstanding shares entitled to vote thereon would be required to amend certain provisions of the Charter.

Quorum

Our Bylaws provide that, at any meeting of the board of directors, a majority of the total number of directors then in-office constitutes a quorum.

No Cumulative Voting

Under Delaware law, the right to vote cumulatively does not exist unless the certificate of incorporation expressly authorizes cumulative voting. The Charter does not authorize cumulative voting.

Limitations on Liability and Indemnification of Officers and Directors

Our Charter and Bylaws provide indemnification and advancement of expenses for the directors and officers to the fullest extent permitted by the DGCL, subject to certain limited exceptions. We have entered into indemnification agreements with each of our directors and officers. In some cases, the provisions of those indemnification agreements may be broader than the specific indemnification provisions contained under Delaware law. In addition, as permitted by Delaware law, the Charter and Bylaws include provisions that eliminate the personal liability of directors for monetary damages resulting from breaches of certain fiduciary duties as a director. The effect of this provision is to restrict our rights and the rights of our stockholders in derivative suits to recover monetary damages against a director for breach of fiduciary duties as a director.

These provisions may be held not to be enforceable for violations of the federal securities laws of the United States.

Dissenters' Rights of Appraisal and Payment

Under the DGCL, with certain exceptions, Symbotic's stockholders will have appraisal rights in connection with a merger or consolidation of Symbotic. Pursuant to Section 262 of the DGCL, stockholders who properly demand and perfect appraisal rights in connection with such merger or consolidation will have the right to receive payment of the fair value of their shares as determined by the Delaware Court of Chancery.

Stockholders' Derivative Actions

Under the DGCL, any of our stockholders may bring an action in the company's name to procure a judgment in its favor, also known as a derivative action, provided that the stockholder bringing the action is a holder of our shares at the time of the transaction to which the action relates.

Forum Selection

The Charter provides that unless we consent in writing to the selection of an alternative forum, to the fullest extent permitted by applicable law, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for any internal or intra-corporate claim or any action asserting a claim governed by the internal affairs doctrine as defined by the laws of the State of Delaware, including, but not limited to, (i) any derivative action or proceeding brought on behalf of Symbotic; (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee or stockholder of Symbotic to Symbotic or its stockholders; or (iii) any action asserting a claim arising pursuant to any provision of the DGCL or the Charter or the Bylaws, or as to which the DGCL confers jurisdiction on the Court of Chancery of the State of Delaware, will be a state court located within the State of Delaware (or, if no court located within the State of Delaware has jurisdiction, the federal district court for the District of Delaware). Further, unless we consent in writing to the selection of an alternative forum, to the fullest extent permitted by applicable law, the sole and exclusive forum for any action asserting a cause of action arising under the Securities Act and the rules and regulations promulgated thereunder will be the federal district court for the District of Delaware (or if such court does not have jurisdiction over such action, any other federal district court) of the United States; provided that, if such forum is illegal, invalid or unenforceable, the sole and exclusive forum for any action asserting a cause of action arising under the Securities Act will be the Court of Chancery of the State of Delaware.

Stockholder Registration Rights

Symbotic entered into the A&R Registration Rights Agreement, pursuant to which, among other things, SVF Sponsor III (DE) LLC, certain of SVF 3's independent directors and certain Symbotic equityholders have specified rights to require Symbotic to register all or a portion of their shares under the Securities Act. Certain stockholders also have certain customary registration rights pursuant to the Subscription Agreements that SVF 3 entered into with such parties on December 21, 2021, pursuant to which the subscribers collectively subscribed for 20,500,000 shares of Class A Common Stock at \$10.00 per share, for an aggregate commitment amount of \$205,000,000.

Trading Symbol and Market

Our Class A Common Stock is listed on NASDAQ under the symbol "SYM."

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon maturity or a declaration of acceleration of their maturity following an event of default pursuant to the terms of the indenture. We will provide you with information on the federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal of and any premium and interest on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will provide you with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of debt securities and such foreign currency or currencies or foreign currency unit or units in the applicable prospectus supplement.

Transfer and Exchange

Each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the depository, or a nominee of the depository (we will refer to any such debt

security as a “global debt security”), or a certificate issued in definitive registered form (we will refer to any debt security represented by a certificate as a “certificated debt security”) as set forth in the applicable prospectus supplement. Except as set forth below, global debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of certificated debt securities and the right to receive the principal of, premium and interest on certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security will be deposited with, or on behalf of, the depository, and registered in the name of the depository or a nominee of the depository. Beneficial interests in global debt securities will not be issuable in certificated form unless (i) the depository has notified us that it is unwilling or unable to continue as depository for such global debt security or has ceased to be qualified to act as such as required by the indenture and we fail to appoint a successor depository within 90 days of such event, (ii) we determine, in our sole discretion, not to have such securities represented by one or more global securities or (iii) any other circumstances shall exist, in addition to or in lieu of those described above, as may be described in the applicable prospectus supplement. Unless and until a global debt security is exchanged for certificated debt securities under the limited circumstances described in the previous sentence, a global debt security may not be transferred except as a whole by the depository to its nominee or by the nominee to the depository, or by the depository or its nominee to a successor depository or to a nominee of the successor depository.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

No Protection In the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

Symbotic may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of its assets to any person (a “successor person”) unless:

- Symbotic is the surviving corporation or the successor person (if other than Symbotic) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes Symbotic’s obligations on the debt securities and under the indenture; and
- immediately after giving effect to the transaction, no default or event of default shall have occurred and be continuing.
- Notwithstanding the above, any of Symbotic’s subsidiaries may consolidate with, merge into or transfer all or part of its properties to Symbotic.

Events of Default

“*Event of Default*” means with respect to any series of debt securities, any of the following:

- default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);
- default in the payment of principal of any security of that series at its maturity;
- default in the performance or breach of any covenant by us in the indenture (other than defaults described above or defaults relating to a covenant that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee, or we and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;
- certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of Symbotic; and
- any other event of default provided with respect to a series of debt securities if any, or subsidiaries that is described in the applicable prospectus supplement.

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. The occurrence of certain events of default or an acceleration under the indenture may constitute an event of default under certain indebtedness of ours or our subsidiaries outstanding from time to time.

If an event of default with respect to any series of debt securities at the time outstanding occurs and is continuing (other than an event of default resulting from certain events of bankruptcy, insolvency or reorganization), then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal amount (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series, by written notice to us and the trustee, may rescind and annul such declaration of acceleration and its consequences if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an event of default.

The indenture provides that the trustee will be under no obligation to perform any duty or exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in performing such duty or exercising such right of power.

Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

- that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series;
- the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request to the trustee to institute the proceedings in respect of such event of default in its own name as trustee under the indenture;
- such holder or holders have offered to the trustee indemnity or security satisfactory to the trustee against the costs, expenses and liabilities which might be incurred by the trustee in compliance with such request;
- the trustee has failed to institute any such proceeding for 60 days after its receipt of such notice, request and offer of indemnity; and
- no direction inconsistent with such written request has been given to the trustee during such 60-day period by holders of a majority in principal amount of the outstanding debt securities of that series.

Notwithstanding any other provision in the indenture, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, and any interest on, that debt security on or after the due dates expressed in that debt security (or, in the case of redemption, on the redemption date) and to institute suit for the enforcement of any such payment and such rights shall not be impaired without the consent of such holder.

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture from our principal executive officer, principal financial officer or principal accounting officer. If a default or event of default occurs and is continuing with respect to the debt securities of any series and if it is actually known to a responsible officer of the trustee, the trustee shall mail to each holder of the debt securities of that series notice of a default or event of default within 60 days after it occurs or, if later, after a responsible officer of the trustee has knowledge of such default or event of default. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any default or event of default (except in payment on any debt securities of that series) with respect to debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those debt securities.

Modification and Waiver

We and the trustee may modify and amend or supplement the indenture or the debt securities of one or more series without the consent of any holder of any debt security:

- to add guarantees with respect to any Series of Securities or secure any Series of Securities;
- to surrender any of our rights or powers under the indenture;
- to add covenants or events of default for the benefit of the holders of any series of debt securities;
- to comply with the applicable procedures of the applicable depository;
- to cure any ambiguity, defect or inconsistency;
- to comply with covenants in the indenture described above under the heading "Consolidation, Merger and Sale of Assets";
- to provide for uncertificated securities in addition to or in place of certificated securities;

- to make any change that does not materially adversely affect the rights of any holder of debt securities;
- to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;
- to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee;
- to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act; and
- for certain other reasons set forth in any prospectus supplement.

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

- reduce the principal amount of debt securities whose holders must consent to an amendment, supplement or waiver;
- reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;
- reduce the principal of, or change the fixed maturity of, any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;
- reduce the principal amount of discount securities payable upon acceleration of maturity;
- waive a default in the payment of the principal of, or interest, if any, on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);
- make the principal of, or any interest on, any debt security payable in currency other than that stated in the debt security;
- make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, and any interest on, those debt securities and to institute suit for the enforcement of any such payment;
- make any change to certain provisions of the indenture relating to waivers or amendments; or
- waive a redemption payment with respect to any debt security, provided that such redemption is made at our option.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all debt securities of that series, by written notice to the trustee, waive our compliance with provisions of the indenture or the debt securities with respect to such series. The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all the debt securities of such series, waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, or any interest on, any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (subject to certain exceptions). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

- we may omit to comply with the covenant described under the heading “Consolidation, Merger and Sale of Assets” and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and
- any omission to comply with those covenants will not constitute a default or an event of default with respect to the debt securities of that series (“covenant defeasance”).

The conditions include:

- depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal of, and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and
- delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Governing Law

The indenture and the debt securities, including any claim or controversy arising out of or relating to the indenture or the securities, will be governed by the laws of the State of New York (without regard to the conflicts of laws provisions thereof other than Sections 5-1401 of the General Obligations Law).

PLAN OF DISTRIBUTION

We, or the Selling Securityholders, may sell the securities from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods or through underwriters or dealers, through agents and/or directly to one or more purchasers. The securities may be distributed from time to time in one or more transactions:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

Each prospectus will indicate if the securities offered thereby will be listed on any securities exchange.

Offers to purchase the securities being offered by this prospectus may be solicited directly. Agents may also be designated to solicit offers to purchase the securities from time to time. Any agent involved in the offer or sale of our securities will be identified in a prospectus supplement.

If a dealer is utilized in the sale of the securities being offered by this prospectus, the securities will be sold to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If an underwriter is utilized in the sale of the securities being offered by this prospectus, an underwriting agreement will be executed with the underwriter at the time of sale and the name of any underwriter will be provided in the prospectus supplement that the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, we, the Selling Securityholders or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for which they may act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

Any compensation paid to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers will be provided in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We, or the Selling Securityholders, may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof and to reimburse those persons for certain expenses.

The securities may or may not be listed on a national securities exchange. To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if

securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

If indicated in the applicable prospectus supplement, underwriters or other persons acting as agents may be authorized to solicit offers by institutions or other suitable purchasers to purchase the securities at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

We, or the Selling Securityholders, may engage in at-the-market offerings into an existing trading market in accordance with rule 415(a)(4) under the Securities Act. In addition, we, or the Selling Securityholders, may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us, the Selling Securityholders or others to settle those sales or to close out any related open borrowings of common stock, and may use securities received from us or the Selling Securityholders in settlement of those derivatives to close out any related open borrowings of our common stock. In addition, we, or the Selling Securityholders, may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus and an applicable prospectus supplement. Such financial institution or other third party may transfer its economic short position to investors in our securities or in connection with a concurrent offering of other securities.

The underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business for which they receive compensation.

In connection with one or more offerings of the securities registered hereunder, we may enter into lock-up agreements with certain of our directors, officers and/or stockholders. Specific terms of the lock-up restrictions will be provided in the applicable prospectus supplements.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following summary is a discussion of U.S. federal income tax considerations of the ownership and disposition of Class A Common Stock by a Non-U.S. holder. As used herein, the term “Non-U.S. holder” means a beneficial owner of Class A Common Stock who or that is for U.S. federal income tax purposes:

- a non-resident alien individual (other than certain former citizens and residents of the U.S. subject to U.S. tax as expatriates);
- a foreign corporation; or
- an estate or trust that in either case is not subject to U.S. federal income tax on a net income basis on income or gain from the Class A Common Stock;

but generally does not include an individual who is present in the U.S. for 183 days or more in the relevant calendar year. If you are such an individual, you should consult your tax advisor regarding the U.S. federal income tax consequences of the acquisition, ownership and sale or other disposition of our Class A Common Stock.

This section applies only to Non-U.S. holders who hold shares of Class A Common Stock as capital assets for U.S. federal income tax purposes (generally, property held for investment) and that are purchased from us or the Selling Securityholders.

This section is general in nature and does not discuss all aspects of U.S. federal income taxation that might be relevant to a particular holder in light of such holder’s circumstances or status, nor does it address tax considerations applicable to a holder subject to special rules, including:

- financial institutions;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- dealers or traders subject to a mark-to-market method of tax accounting with respect to Class A Common Stock;
- persons holding Class A Common Stock as part of a “straddle,” hedge, integrated transaction or similar transaction, or persons deemed to sell the Class A Common Stock under constructive sale provisions of the Code;
- partnerships or other pass-through entities for U.S. federal income tax purposes or investors in such entities;
- holders that are controlled foreign corporations or passive foreign investment companies;
- persons who acquired Class A Common Stock through the exercise or cancellation of employee stock options or otherwise as compensation for their services;
- persons who are, or may become, subject to the expatriation provisions of the Code; or
- tax-exempt entities.

This discussion is based on the Code, and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations all as of the date hereof, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein (possibly with retroactive effect).

This discussion does not address any aspect of state, local or non-U.S. taxation, or any U.S. federal taxes other than income taxes (such as estate or gift tax consequences, the alternative minimum taxes or the Medicare tax on investment income). Each of the foregoing is subject to change, possibly with retroactive effect. You should consult your tax advisors with respect to the application of U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or non-U.S. jurisdiction.

If a partnership (or any entity or arrangement so characterized for U.S. federal income tax purposes) holds Class A Common Stock, the tax treatment of such partnership and a person treated as a partner of such partnership will generally depend on the status of the partner and the activities of the partnership. Partnerships holding any Class A Common Stock and persons that are treated as partners of such partnerships should consult their tax advisors as to the particular U.S. federal income tax consequences to them of the ownership and disposition of Class A Common Stock.

THE FOLLOWING IS FOR INFORMATIONAL PURPOSES ONLY. ALL STOCKHOLDERS SHOULD CONSULT THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF CLASS A COMMON STOCK, INCLUDING THE EFFECTS OF U.S. FEDERAL, STATE AND LOCAL AND NON-U.S. TAX LAWS.

Distributions

In general, any distributions we make to a Non-U.S. holder of shares of Class A Common Stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes. Provided such dividends are not effectively connected with the Non-U.S. holder's conduct of a trade or business within the United States (and are not attributable to a U.S. permanent establishment under an applicable treaty), we or the applicable withholding agent will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such Non-U.S. holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E). If a Non-U.S. holder is eligible for a reduced rate of U.S. withholding tax under a tax treaty, the Non-U.S. holder may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the IRS. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the Non-U.S. holder's adjusted tax basis in its shares of Class A Common Stock and, to the extent such distribution exceeds the Non-U.S. holder's adjusted tax basis, as gain realized from the sale or other disposition of the Class A Common Stock, which will be treated as described under "*Taxable Disposition of Class A Common Stock*" below. In addition, if we or the applicable withholding agent determine that we are likely to be classified as a "U.S. real property holding corporation" (see "*Taxable Disposition of Class A Common Stock*" below), we or the applicable withholding agent may withhold 15% of the portion of any distribution that that is not treated as a dividend for U.S. federal income tax purposes.

Dividends that we pay to a Non-U.S. holder that are effectively connected with such Non-U.S. holder's conduct of a trade or business within the United States (and if a tax treaty applies, are attributable to a U.S. permanent establishment or fixed base maintained by the Non-U.S. holder) will generally not be subject to U.S. withholding tax, provided such Non-U.S. holder complies with certain certification and disclosure requirements (usually by providing an IRS Form W-8ECI). Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the Non-U.S. holder were a U.S. person, subject to an applicable income tax treaty providing otherwise. A Non-U.S. corporation receiving effectively connected dividends may also be subject to an additional "branch profits tax" imposed at a rate of 30% (or a lower treaty rate).

Taxable Disposition of Class A Common Stock

A Non-U.S. holder generally will not be subject to U.S. federal income or withholding tax in respect of gain realized on a sale, taxable exchange or other taxable disposition of Class A Common Stock, unless:

- the gain is effectively connected with the conduct of a trade or business by the Non-U.S. holder within the United States (and, under certain income tax treaties, is attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. holder); or
- we are or have been a "United States real property holding corporation" for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. holder held Class A Common Stock, and, in the case where shares of Class A Common Stock are regularly traded on an established securities market, the Non-U.S. holder has

owned, directly or constructively, more than 5% of Class A Common Stock at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. holder's holding period for the shares of Class A Common Stock. There can be no assurance that Class A Common Stock will be treated as regularly traded on an established securities market for this purpose.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates as if the Non-U.S. holder were a U.S. person. Any gains described in the first bullet point above of a Non-U.S. holder that is a foreign corporation may also be subject to an additional "branch profits tax" at a 30% rate (or lower treaty rate).

If the second bullet point above applies to a Non-U.S. holder, gain recognized by such holder on the sale, exchange or other disposition of Class A Common Stock will be subject to tax at generally applicable U.S. federal income tax rates. In addition, if Class A Common Stock will not be treated as regularly traded on an established securities market, then a buyer of Class A Common Stock from such holder may be required to withhold U.S. federal income tax at a rate of 15% of the amount realized upon such disposition. We will be classified as a United States real property holding corporation if the fair market value of our "United States real property interests" equals or exceeds 50% of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes. Although there can be no assurance, we do not believe that we are, or have been, a United States real property holding corporation. We can provide no assurance as to our future status as a United States real property holding corporation.

Information Reporting and Backup Withholding

Information returns may be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of Class A Common Stock. A Non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid the backup withholding as well. The amount of any backup withholding from a payment to a Non-U.S. holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

FATCA Withholding Taxes

Provisions commonly referred to as "FATCA" impose withholding of 30% on payments of dividends on Class A Common Stock to "foreign financial institutions" (which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied by, or an exemption applies to, the payee (typically certified as to by the delivery of a properly completed IRS Form W-8BEN-E). The IRS has issued proposed regulations (on which taxpayers may rely until final regulations are issued) that provide that these withholding requirements would generally not apply to gross proceeds from sales or other dispositions of property that would give rise to U.S. source dividend income, such as Class A Common Stock. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Under certain circumstances, a holder might be eligible for refunds or credits of such withholding taxes, and a Non-U.S. holder might be required to file a U.S. federal income tax return to claim such refunds or credits. Prospective investors should consult their tax advisors regarding the effects of FATCA on their investment in our securities.

ALL NON-U.S. HOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS REGARDING THE U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF INVESTING IN OUR SECURITIES TO THEM.
